## TELEGRAPHIC.

REGINA, December 31.

The legislative assembly was prorogued this afternoon at 2 o'clock with the usual ceremonies. All bills passed were assented to. The governor's speech was conciliatory in tone and alluded to the cordial relations existing between himself and his executive. He expressed a desire to administer the finances according to the advice of the executive committee and the vote of the assembly. All members except the executive committee leave for home to-night.

WINNIPEG January 5.

Wheat continues to increase in price. A squaw has been poisoned at Moose Jaw. Detective Montgomery of Ottawa, has suicided.

The Empire intimates that the party will stand by the National policy.

Hugh J. Macdonald will retain his seat in the Commons for Winnipeg.

Mayor Fleming beat Sheppard for the Toronto mayoralty by over 3,000.

Harrison will not issue his proclamation on the bonding question but will make recommendations to congress and leave it to act.

Tarte, who is running for the commons in L'Islet, Quebec, promises if elected to impeach several judges, and promises other exposures.

One of the Toronto conservative papers defends Dalton McCarthy for his difference with his party on the trade question.

Terribly cold weather in Eastern Canada, Forty below in some places. Cold weather also prevails throughout Europe. It is 56 below in Russia.

Four men and forty horses have arrived in a lumber camp on the Quebec frontier. The Canadian authorities do not think the bonding privilege will be worked by the United States.

The appeal in the Manitoba school-case will be heard by a sub-committee of the privy council at Ottawa on January 21st. It is likely that there will be a compromise with the western members as to the sale of school lands.

There is indignation amongst the English loyalists of Quebec because Lieutenant governor or Chapleau paid Cardinal Taschereau an official visit. The Cardinal refused to visit first because he was a prince of the church, and therefore of higher rank than the representative of Her Majesty.

# NORTHWEST ASSEMBLY.

REGINA, December 28th.

House opened at 10 a. m. Several members still absent. The bill respecting agricultural societies was read a third time. The bills amending the marriage ordinance, amending the provision in certain ordinances regarding the lieutenant-governor-in-council, amending the municipal ordinance, and regarding noxious weeds were considered in committee of the whole. New provisions regarding frontage tax in towns were agreed to in committee.

## AFTERNOON SESSION.

The elections bill was passed through committee for the third reading.

The financial resolutions defining the grants under the school ordinance were considered in committee and agreed to. The basis grant is raised to \$420 and the grant on account of pupils above standard three is made \$18.

The liquor license amendments were considered in committee.

Clinkskill moved an amendment providing that general stores carrying on a liquor business as permitted outside of towns must close at the usual closing hour of licensed places.

The amendments to the judicature ordinance were considered in committee.

The school ordinance was passed through committee and reported for the third reading. Mowat moved an amendment permitting the adoption of a single land tax in school districts.

Haultain's bills to repeal the executive committee ordinance of last year and to constitute a new executive committee passed without amendment.

REGINA, December 29th.

Mowat introduced a bill to provide a new method of municipal assessment in line with the single tax. He did not desire to push the bill through this session, but wished to have it printed and circulated with a view to pushing it next session.

Davidson re-introduced a bill of last session to legalize a by-law of the municipality of Indian Head.

Cayley from the civil justice committee reported that the bill regarding apprentices and minors should be held over until next session.

Elections bill was read a third time, also the school bill.

Prince moved an amendment to the latter, re-inserting a part of a clause which had been struck out and which had affirmed the right of separate schools to tax all the property owned by persons of their religious faith within the school district. Clinkskill seconded. Amendment defeated by 18 to 5.

The bill repealing the executive committee ordinance of last session, and the bill to replace it respecting expenditure were read a third time.

The bill respecting unincorporated towns was withdrawn.

The amendments to the ordinance respecting medicine and surgery, amending the marriage ordinance, respecting noxious weeds and amending the municipal ordinance were passed through committee.

## HOLY CROSS HOSPITAL.

In the latter part of November last there was opened in Calgary a general hospital, which, as a building and an institution is a credit to the town, and a tribute to the generosity and philanthropy of its citizens as well as to the untiring energy of the Roman Catholic sisters of charity, who have undertaken and carried to completion this charitable enterprise. The building is situated about a mile south of the business portion of the town, on the Roman Catholic mission property and near the church and mission buildings, not far from the Elbow river. The size of the building is 44x68, with wing 36x20. It comprises a basement story, entirely above ground, a first and second full stories, and an attic story. The basement walls are of Calgary free stone, and the rest of the walls of brick. The basement contains the kitchen, laundry, furnace-room, dining-room, hall and three wards for the sick, and is completely finished, the wood work in red cedar. On the first floor is the main entrance hall and reception room and the private wards. The second floor will contain the wards set apart for contagious diseases. The attic is unfinished as yet, but it will ultimately be fitted up in rooms for the working sisters. The building is heated throughout by hot water. There are plenty of windows, the rooms are large and the halls wide, giving an airy and cheerful appearance, which is most desirable in such an institution. The material and workmanship on the building are excellent, both inside and out, everything being of the best, which gives an appearance, or indeed an assurance, of permanence and creates a most favorable impression in the minds of visitors. For the present the ambition of the sisters has outran their means, and they are dependent upon further aid to complete the furnishing of the hospital, so that it may be useful to the extent of its capacity. But there is no doubt that having begun the work of caring for the sick, the energy and generosity united which have brought the hospital to its present state will not rest or cease until it is completely equipped in every part.

Winnipeg Tribune: "A peculiar form of cholera infantum is prevalent among children. Medical practitioners regard it as a bad omen for summer months. There have been no fatal cases, so far as learned, but the patients are very much depressed, and in warmer weather it would undoubtedly be attended with fatalities."

The customs revenue of Canada fell from \$23,399,300 in 1891 to \$20,501,059 in 1892, nearly three millions dollars. This falling off is said to have been on account of the abolition of the sugar duties. If this is the real cause there is no ground of complaint from the consumer's point of view.

The Great Northern railway will be in full operation to the Pacific coast early next summer. This will be the fifth transcontinental road.

A proposition to abolish taxes on personal property was defeated in Toronto recently by an overwhelming majority.

EDMONTON BULLETIN, JANUARY 5, 1893

**THE NEW COUNCIL.**

The second municipal election in the history of Edmonton, which took place on Tuesday last, was not less important than the first which occurred nearly a year ago. It is a mistake to think lightly of the importance of municipal office, or of the responsibilities which are attached to it, either on the part of the citizen, who, as a member of the council, conducts the affairs of the town, or of the citizen who plays the part of taxpayer—and complainant in general. There is no question as to the importance of the power of taxation which rests in the council—everyone feels and knows that—and there is as little as to the important effect which the proper or improper application of the taxes so raised has in advancing or retarding the general prosperity of the municipality—but this side of the question is not always as thoroughly understood or appreciated. It is a good sign when the heavy taxpayers of the town take an active interest in its public affairs, either by offering themselves for office or by turning out and voting and working for or against the several candidates who may be so offering. As to the personal feeling which may enter into a municipal contest nothing need be said. It is only fair to say, however, that in the two contests which Edmonton has gone through, personal feeling—either ambition or animosity—played the very smallest part. Of the late council it can truthfully be said that it fairly represented the business interests of the town, and of the present one the same may be said an almost equal degree. The only fault found with the retiring council was that it was somewhat too liberal in expenditure, and at times somewhat lax in its business methods. On the other hand, in taking hold of a town laid out and situated as this was, with everything to do, a liberal expenditure was necessary, and it was not desirable that mere formalities should be allowed to retard the work of improvement. Comparing the town as it is to-day with what it was a year ago, it must be admitted that the retiring council did a great deal of very good work, and certainly every member of it exerted himself to the very fullest extent—never stinting his time—in attending to the duties which devolved upon him. The first year of a town's existence is the most critical, for mistakes made then are liable to affect it ever afterwards, and for lack of any foundation to build on mistakes are then most liable to be made. Compared with almost any other town in the Northwest Edmonton has come through the first year of its municipal existence very creditably, and to the members of the council who had charge of its affairs during that time full credit is due.

The incoming council has been elected under most favorable circumstances. The mayor and two members of the retiring council have been re-elected, and their experience will be useful in all matters of procedure, saving time and tending to avoid irregularity, and so leaving less room for criticism. At the same time a majority of new members have been elected, so that if a change of policy in any particular is felt to be desirable it is possible to effect it. There is no doubt that

the new members have been elected on the idea that they will secure a more economical efficiency in the municipal service. This is always desirable, and in their efforts in this direction they will have the support of every taxpayer. But there are two or three questions immediately facing them which must be dealt with on other grounds than those of mere economy. The first of these is the ferry matter. With the coming spring the control of ferries on the river opposite the town limits devolves upon the town. To arrange for the running of these ferries so that they shall not be an undue burden upon the town treasury, and at the same time so that travel shall have the greatest possible facility, as the business interests of the place requires, is a duty which will require the greatest delicacy, and tact in its discharge. The bridge question is also up, not simply for discussion, but for action, and also the question of securing an adequate supply of water for fire protection purposes in the business part of the town. These are matters which must be dealt with, in one way or another—which will not be ignored. Upon the ability with which they—especially the bridge matter—are handled, depends very greatly the future of the place. In the incoming council we have men whose interests in the place are such, and whose success in business has been such, as to ensure that they have both the will and the ability to deal with these important questions in the manner which shall best advance the prosperity of the place.

## TOWN ELECTIONS.

The annual election of councillors for the town of Edmonton took place on Tuesday last, January 3rd. As mayor McCauley had been re-elected by acclamation on nomination day, the voting was for councillors only. The following is the return of the votes received by the several candidates:

J. A. McDougall.....	107
K. A. McLeod.....	84
C. F. Strang.....	72
Jas. Goodridge.....	64
Geo. P. Sanderson.....	61
C. Gallagher.....	58
D. R. Fraser.....	49
J. Cameron.....	48
A. F. Degagne.....	46

A. G. Randall, town clerk, acted as returning officer and J. R. Michael as deputy returning-officer. The count was begun by the returning officer at 5 o'clock, as soon as the poll had closed, and the result was declared at 6 o'clock. None of the ballots cast were rejected on account of being mismarked. Only two were spoiled in process of voting, and these were replaced in time, so that every vote cast was counted. The total number of votes cast was 128, showing that of all the ballots cast only 21 were not marked for Mr. McDougall, an expression of public confidence of which that gentleman has reason to feel proud. The total number of votes on the list was 268, of whom 176 resident and 92 non-resident. Considering that no person was allowed to vote unless his taxes were paid a very creditable vote was polled. The reason that the vote was so much smaller than the first election last winter was that then a property qualification was not required, while now not only is the property qualification required but the taxes on it must have been paid. The proceedings during the voting were carried on very quietly, although there was a very fair amount of hustling done. In the evening the Fire Brigade band serenaded the successful candidates, while the defeated ones accepted the inevitable with a good grace.

## NORTHWEST ASSEMBLY.

REGINA, December 30th.

### MORNING SESSION.

Davidson moved the following resolution, seconded by Mowat:

Whereas in 1883 an Act was passed by the Dominion government granting second homesteads to those settlers who had completed the conditions of the first homestead entry; And whereas in 1886 an Act was passed abolishing the policy of second homesteads; Therefore be it resolved that, in the opinion of this assembly, the Dominion government should pass an Act granting a second homestead to all those who came into the Northwest between the said first day of June 1883, and the second day of June, 1886, and who entered for a homestead with the understanding that they should receive a second homestead on completion of their own homestead duties. Carried.

Mowat moved the following resolution:

That an humble address be presented to His Honor the lieutenant-governor praying that he will cause to be forwarded to the Secretary of State for Canada and the Honorable the Minister of the Interior, a memorial embodying the following resolution endorsed by this House:

That in the interest of the settlement of the Territories and that justice be meted to the several municipal and school districts within the Territories, it is desirable that the attention of the Dominion government should be drawn to the great wrong that is being perpetrated by allowing railway and other large corporations to hold lands without taking out patents for the same, and would draw their attention to the anomaly that exists between those corporations and the homesteader, who so soon as he makes his entry is subject to taxation, while they, although practically in possession of their lands and standing in the same relation to the government as the homesteader, claim exemption from taxation. Carried.

Haultain moved, seconded by Tweed, that it is expedient to pay a reward of \$200 for the apprehension of the murderer of P. O. Skaalent, near Edmonton. The lieutenant-governor had refused to sanction estimates providing for this payment, although it was proposed to be made from purely Territorial funds. This motion was for the purpose of getting the opinion of the house as to the propriety of paying this amount and then making a test case to decide whether the assembly was actually in control of its own funds or not.

Brett would vote against the resolution as he did not approve of the purpose expressed.

The resolution was carried by a vote of 17 to 2, the latter being Brett and McKay.

Brett's bill to provide more stringent regulations in cases of horses affected by glanders was passed through committee.

Magrath's bill to provide for the inspection of coal mines was dropped by the mover, on the ground that sufficient expert evidence had not been considered to ensure that its provisions would meet the case.

The supply bill was passed without a division.

Have purchased their Brick Machinery to be shipped at once, the machinery is of the latest improved make and will turn out the finest kind of pressed brick, the brick will be considerably larger in size than the usual brick so the purchaser may count on the saving of one thousand in every ten, also less time and labor required. The price will be \$10.00 per thousand delivered inside the city limits in large quantities. We will have brick ready for sale about the 1st of May next. Any person requiring brick early it would be to their advantage to give their orders as soon as possible. We guarantee our brick 1st class and to fill all orders after May 1st. next.

MESSRS LITTLE & MALONEY.  
PROPRIETORS.

## BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my work and prices in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern states for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September, \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders. W. HUMBERSTONE.

# NORTHWEST ASSEMBLY.

REGINA, December 29th.

## AFTERNOON SESSION.

Cayley from the committee on standing orders and library reported that the petition for the incorporation of the town of Macleod be not received.

Haultain objected and finally Cayley withdrew the report.

Haultain moved the house into committee of supply. The items were passed as follows with very little discussion?

## LOCAL.

PROF. Ned Parker, the celebrated Pacific pen man, has been fined \$20 and costs in Winnipeg for infraction of the anti-lottery law.

THE officers, non-commissioned officers and men of G. division N.W.M. Police, give their annual ball at Fort Saskatchewan to-morrow, Friday evening.

A LARGE amount of machinery arrived last week for Fraser & Co's mill. The firm contem. plate making a large addition to their sawing capacity for next season.

T. G. PEARCE, of Agricola, has been appointed Dominion government immigration agent to Idaho and Washington. He left Calgary on Tuesday morning for Seattle.

THE council did not hold the usual meeting last night, owing to the absence of the mayor. The last meeting of the retiring council will be held on Wednesday evening next.

MR. BELL, miller for the Edmonton Milling Co., arrived on Monday's train from Regina. The last of the machinery for the mill has arrived and grinding will begin shortly.

EDMONTON coal sells in Calgary for \$7 a ton this winter, only a dollar less than hard coal from Canmore. Eight car loads have been shipped already, and a car load is being shipped by each train.

THE telegraph line went down between Edmonton and Red Deer on Saturday. It was repaired again on Monday afternoon. When this line goes down it remains down until the train comes along. It is then repaired by the train crew.

THE train which left Edmonton on Friday last and went on to Macleod on Saturday, stuck in the snow in a cut about three miles from Macleod and did not get through to Macleod until Monday afternoon. The train which arrived in Edmonton on Monday was made up in Calgary to fill the place of the regular train on the time table.

THE machinery for the roller flour mill, in South Edmonton, has all arrived and the millwrights, with a staff of workmen, are busy setting it up. The machinery is all new and of the latest patterns. No expense is being spared to make a first-class job, and when the mill is completed this district will have a first-class mill capable of turning out a quality of flour equal to any made in the Dominion. Mr. Ritchie, the manager, regrets the delay in getting started, but hopes yet to do a good business this winter. He expects to have the mill running in three weeks and will then pay cash for any amount of good wheat.

ONE of the heaviest snow falls ever known in Edmonton commenced on Saturday forenoon last about ten o'clock, and continued without interruption until Monday morning about the same hour. The snow was light and soft and piled up to a depth of about twenty-two inches. On Monday afternoon the weather became so mild that the snow began to settle, and this process continued rapidly all of Tuesday and somewhat less rapidly on Wednesday. It is still going on to-day. There was no drifting during the snow fall. The snow was deeper between Edmonton and Peace hills than at Edmonton but south of Peace hills it was much shallower, and at Red Deer only a few inches fell. At Calgary there was none. It appears that this heavy fall did not extend far eastward there being none at Battleford. Even at St. Albert nine miles northwest and at Fort Saskatchewan 20 miles northeast there was much less than at Edmonton. Although the deep snow is an inconvenience at the time, there is no doubt that it is a benefit in the end. It prevents the frost from going into the ground so deeply and so permits it to thaw out more quickly in the spring and to permit an earlier and better plant growth. It ensures an abundance of moisture in the spring which prevents destruction by prairie fires, and fills up the sloughs and creeks with water, which again ensures an abundance of hay. Of course, it is possible to have too much of even a good thing, but for the past few years we have had too little snow, and the present fall is therefore the more welcome.

THE Indians on the reserve at Whitefish lake have finished threshing their grain. It amounted to 3,000 bushels of first-class wheat, barley and oats. The department has provided a steam thresher and machinery arrived recently for a grist mill to be run by the thresher engine. The mill will be in operation in time to grind this season's crop. The fishery at the lake was very poor this year, partly on account of lack of nets and partly on account of a decrease in the number of fish. The fur caught this season has been chiefly muskrats and foxes. Rabbits and prairie chickens are very numerous. Ptarmigan, or white partridges, are also seen in considerable numbers. This bird is seldom seen so far south.

## EDMONTON BRICK COMPANY.

Have purchased their Brick Machinery to be shipped at once, the machinery is of the latest improved make and will turn out the finest kind of pressed brick, the brick will be considerably larger in size than the usual brick so the purchaser may count on the saving of one thousand in every ten, also less time and labor required. The price will be \$10.00 per thousand delivered inside the city limits in large quantities. We will have brick ready for sale about the 1st, of May next. Any person requiring brick early it would be to their advantage to give their orders as soon as possible. We guarantee our brick 1st class and to fill all orders after May 1st. next.

## BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my work and prices in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sold in the cities of Canada and the Eastern states for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September, \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders.
